Specifications for Supporting Information

Traffic Control Plans – A Traffic Control Plan (TCP) submitted for designated activities and works must be authorised by a person holding the qualification **Prepare a Work Zone Traffic Management Plan**, under the scheme administered by RMS. The TCP shall be prepared in accordance with the Traffic Control and Worksites Manual, version as current at time of application, prepared by RMS.

Certificate of Currency – A Certificate of Currency must identify the proposed permit holder as the insured party, with the value of Public Liability Insurance being no less than \$20,000,000. The Certificate of Currency must have an expiry date at least three (3) months later than the finish date for the proposed work activity.

Engineering Certification – A certificate issued by an engineer must be by a **Professional Engineer**, holding registration with NPER, in the appropriate category of registration, e.g. structural engineering, geotechnical engineering.

General Arrangement Plan – A plan, drawn to scale, showing the arrangement and details (relating to hoardings, works zones, and ground anchors).

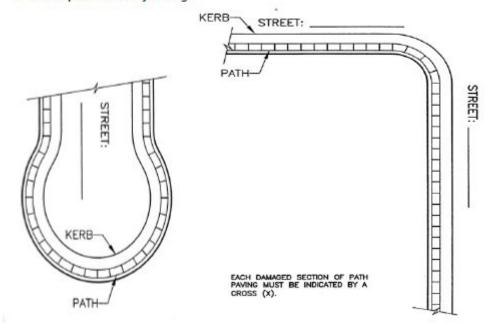

Permit Processing

- 1. This application is NOT a permit to undertake the work or activity. A valid permit must be obtained PRIOR TO undertaking the work or activity. Permits are only valid upon payment of additional charges.
- 2. Permits may be issued subject to conditions. It is the permit holder's responsibility to ensure that conditions are satisfied.
- 3. A minimum of five (5) working days is required to process the application. Council may require additional information to process the application. It is the applicant's responsibility to ensure that applications are made in advance. Applications made for start dates within five (5) days of the lodgement date will not be accepted.
